I am an interior designer with 15 years of experience in the field, specializing in the interior design and decoration of apartments in Israel. I provide architectural drawings and 3D visualization services, and I have a particular passion for full reconstruction projects. I thrive on tackling challenging interior design problems, finding clever solutions that align with my clients' budgets. My work primarily involves AutoCAD, SketchUp, and 3ds Max. I am committed to delivering simple, effective solutions within the financial frameworks of my projects.
